## Moving solutions. Living spaces with glass.

With our passion for the material glass we create something really big from something small. Pure dynamics develop from perfectly coordinated, technically precise glass fittings.

Because it is the small elements with a big effect that make the movement of glass between rooms possible in the first place.

That is our self-conception. And we are committed to this with all our knowledge of the possibilities of glass in moving solutions.

## Glass sliding walls

Our horizontal sliding wall and folding wall systems keep design scope open. When fully opened on request, the separation between inside and outside disappears.

Glass sliding wall systems leave room for creativity. Location, scope of application and desired indoor climate will determine the individual context for the individual project. The generous transparency reduces the visual separation between the interior and the exterior; a special advantage for shop fronts. And, if needed, the sliding panels make room for barrier-free openness.

▲ **HSW FLEX Therm**  
Thermally insulated  
closure as desired.  
Weather and well-being  
alone decide whether  
the wall is open or  
closed.

◀ **HSW EASY Safe**  
After being moved individually all panels stand in the park position. The dividing wall between inside and outside disappears.

## HSW EASY Safe

### Single Elements with free lateral glass edges

High transparency and safety in use. Whether in straight, angled or curved design – HSW EASY Safe adapts to individual requirements and is suitable for modernisations as well as new buildings. Upper and lower door rails provide stability and incorporate the functional components. Integrated single-action or double-action sliding panels provide access at the desired location.

#### Your advantages:

- Free lateral glass edges for high transparency
- User friendly operation of the single panels for flexible use of space
- Secure hold of laminated safety glass through additional adhesive bonding “Clamp & Glue”
- Visible status indicator by clear color system for upper locking systems

Find more information  
and documents here.

◀ **FSW EASY Safe**  
Ideal for linear layout

## FSW EASY Safe

### Compact foldable

Transparent, compact and space-saving: the glass folding wall FSW EASY Safe is ideal for linear installations. Its simple and space-saving folding technology does not require a separate parking structure. By linking up to six panels the glass fronts can be extended as desired – for generous transparency. Similar in appearance with top and bottom door rails, this folding sliding wall is a suitable alternative to the HSW EASY Safe.

#### Your advantages:

- Easy and quick installation
- Secure and easy in use
- Secure hold of laminated safety glass through additional adhesive bonding “Clamp & Glue”
- Visible status indicator by clear color system for upper locking system
- No need for separate parking construction

Find more information  
and documents here.

**HSW FLEX Therm**  
Thermally insulated  
closure as desired.  
Weather and well-being  
alone decide whether  
the wall is open or  
closed.

## HSW FLEX Therm

### Thermally insulated closure in an instant

Glass sliding walls with thermal insulation give you a firm grip on your indoor climate – regardless of whether the outside temperature is hot or cold. This sliding glass wall is a very good choice wherever higher temperature differences need to be separated at times. A thermally separated floor profile is used for better downward sealing. Simply screwed onto the finished floor, its low height of 7 mm does not affect the barrier-free nature of the system.

#### Your advantages:

- Energy efficiency through improved thermal insulation
- One convenient switch from sliding panel function to door function at the single-action sliding panel
- Straight design of the framed panels with barely visible operating elements
- Multi-point locking for single-action end panels and single-action sliding panels.

Find more information  
and documents here.

◀  
**HSW-R**  
The fixed sliding panels  
quickly become hinged  
doors for access when  
the wall itself is closed.

## HSW-R

### Moderate weather protection

This glass sliding wall comes with aluminium frames throughout its edges at every single panel. Lateral rubber lips and double brush seals at the top and at the bottom offer additional protection against draught and humidity. It is therefore ideally suited for shop windows and store entrances in the exterior.

#### Your advantages:

- Easy and quick installation
- Safe and easy in use
- Circumferential aluminium frame, suitable for TSG, LSG, insulating glass and special glass types
- Visible status indicator by clear color system for upper locking system

Find more information  
and documents here.

Relax off all year round  
and enjoy the feeling  
of the open air. ▶

## BSW-G

### Turn- and slide-system for balcony and terrace sliding walls with innovative clamping technology

With our DORMA-Glas turn- and slide-system for balcony and terrace glazing, we offer an approach for upgrading the outdoor area of any property. Be that as part of a new-build or renovation, for residential quarters or private homes – light-flooded rooms with open views of the outside create quality spaces for living and are guaranteed to become a new favourite spot in the home. Be inspired and discover the numerous advantages of our turnand slide-systems for balcony and terrace glazing. Enjoy the outdoors no matter what the weather – with all the benefits of the indoors.

#### Your advantages:

- In aluminium or powder-coated finish
- Available in the weather-proof colour of your choice
- Clamping technology as a sustainable system
- No glass processing required
- Space-saving parking of sliding walls
- Large opening widths
- Flexible system configurations

and documents here.

◀  
**Enjoy the view –**  
protected from  
the wind and rain.

## Balcony sliding walls

### A new favourite spot in the home

To make the best possible use of the space available, modern living quarters are also increasingly being developed in traffic-heavy urban areas. In such cases, balcony sliding walls by DORMA-Glas offer attractive added value for buyers and renters: background noise is reduced, and the wind and rain are kept at bay. But you can still enjoy the feeling of being outdoors.

#### Your advantages:

- Wind and rain protection for use all year round
- Air circulation thanks to small gaps (3 mm) between the glass elements
- Protection for children and pets
- Less heat loss
- Light-flooded quarters with high quality of living
- Optimal use of living space, even next to busy roads (sound insulation)
- Smooth, quiet handling
- Great investment for increasing the value of the property

**Glazed terrace**  
for excellent quality  
of life.

## Terrace sliding walls

### Upgrading outdoor areas

The perfect addition to any living space are the sliding terrace walls from DORMA-Glas, which provide more comfort and functionality. A cosy and protected atmosphere is created, with a pleasant, relaxed feeling.

#### Your advantages:

- Use the terrace all year round with wind and rain protection
- Air circulation thanks to small gaps (3 mm) between the glass elements
- Protection for children, pets and terrace furniture
- Extend the living space
- Flowing transition between the garden and living area
- Smooth, quiet handling
- Stainless-steel knob for access from both sides
- Great investment for increasing the value of the property
